# S Corporation Reconciliation SHAREHOLDERS INFORMATION RETURN INSTRUCTIONS

## GENERAL INSTRUCTIONS

### CORPORATIONS REQUIRED TO FILE RETURNS

Every S Corporation deriving income from sources within Delaware is required to file an S Corporation Reconciliation and Shareholders Information Return (Form 1100S).

The Federal Small Business Job Protection Act amended Subchapter S of the Internal Revenue Code by revising the manner in which Federal S Corporations may organize. The State of Delaware has issued regulations (Technical Information Memorandum 98-2) to adopt the provisions of Sections 1361 through 1379 of the Regulations to the Internal Revenue Code of 1986. A valid election under the rules prescribed by the Internal Revenue Service by a parent S Corporation to treat a wholly owned subsidiary as a QSSS shall be valid for Delaware purposes upon making the federal election. Entities carrying on a trade or business within Delaware are subject to the provisions of Title 30 of the Delaware Code and are required to file income tax returns for such years. An S Corporation which has elected to treat a subsidiary which is conducting business in Delaware as a QSSS shall be a taxable entity in Delaware and the items of income, deductions and apportionment factors of the QSSS shall be included on the income tax return of the S Corporation. The QSSS is also subject to the licensing and gross receipts provisions of Title 30 of the Delaware Code with respect to its business activities conducted within Delaware.

Section 1902(b)(9) of Title 30 of the Delaware Code exempts from the corporation income tax qualified small business corporations having a valid election under Subchapter S of the Federal Internal Revenue Code.

If exemption is claimed under this Section, complete Form 1100S, S Corporation Reconciliation and Shareholders Information Return and attach a copy of Federal Form 1120S.

The State of Delaware has not adopted by statute or by regulation, the provisions of the Uniform Division of Income Tax Purposes Act nor is the State a member of the Multistate Tax Commission. The State of Delaware does not recognize or approve using Combined Reporting, Unitary or Waters Edge methods of filing a Delaware corporate income tax return.

Consolidated returns are not permitted under Delaware Law.

### PERIOD COVERED BY RETURN

The income year of a corporation is the same as the taxable year for which the corporation reports for purposes of the Federal income tax. Accordingly, this return is to be filed for the calendar year 2017 or fiscal year beginning in 2017 and ending in 2018.

Short period returns are required when there is a change of the annual accounting period or where the S Corporation is not in existence for the entire year.

Short period returns are also required when there is a change of an S election. Chapter 19, Corporation Income Tax, of Title 30 of the Delaware Code does not contain a specific provision for the filing of a short period corporate final income tax return. Section 1901(10) provides that the "income year" of a corporate taxpayer shall be the taxable year for which a taxpayer computes its net income for purposes of the Federal income tax. Section 1903 provides that the entire net income of a corporation is the amount of its federal taxable income with specific modifications. As a result, if a short period Federal return is due, a short period Delaware return is also due for the same tax period. Short period returns of dissolving corporations are due on the fifteenth day of the third month after the end of the short period year.

### PENALTIES AND INTEREST

Returns filed late are subject to a penalty of 5% per month, up to a maximum of 50% of the tax liability due, plus interest of 1/2% per month from the original due date until paid. In addition to the above penalties and interest, an additional penalty of 1% per month (not to exceed 25%) is imposed for failure to pay (in whole or in part) the tax liability shown to be due on a timely filed return.

### ESTIMATED TAX FILING REQUIREMENTS

Every S Corporation deriving income from sources within Delaware must make estimated payments of personal income tax on behalf of its non-resident shareholders based on the non-residents' share of the distributive income of the corporation. The S Corporation must make an estimate of its distributive income for the taxable year (apportioned to Delaware) and multiply it by the percentage of stock owned by the non-resident shareholders. This amount is then multiplied by 6.60% to determine the amount of personal income tax required to be paid by the S Corporation.

Every S Corporation with non-resident shareholders is required to declare the amount of its estimated tax liability and prepay the amount of its estimated tax liability in four installments. House Bill No. 257, signed July 23, 1997, eliminates the requirement for the S Corporation to file and remit estimated tax when the S Corporation's taxable period is less than 92 calendar days. The declaration, and remittance equal to 50% of the S Corporation's estimated tax liability, are due on or before the fifteenth day of the fourth month of the taxable year. The declaration (Form P-1) is due even if the estimated tax liability is zero and no remittance is required. The remaining coupons -- P-2, P-3, and P-4 -- are not required to be filed if the estimated tax liability remains at zero for the remainder of the taxable year. If the estimated tax liability is greater than zero during any of the remaining three quarters of the taxable year, quarterly estimated tax payments are due according to the following schedule: 20% on the fifteenth day of the 6th month of the taxable year; 20% on the fifteenth day of the 9th month of the taxable year and 10% on the 15th day of the fifteenth month of the taxable year.

Failure to make a declaration or file and pay the required payments of personal income tax will result in a penalty. A penalty of 1.5% per month is imposed on any underpayment or late payment of estimated taxes from the due date of the estimated payment to the date the tax was paid. The penalty will not be imposed if the total estimated tax timely paid equals or exceeds 80% of the current year's liability or equals or exceeds 100% of the tax liability of the first preceding taxable year.

### Small Corporation Rule:

The term "small corporation" means any corporation, including, without limitation, an S corporation subject to § 1158 of this title, if such corporation (or any predecessor corporation) had aggregate gross receipts from sales of tangible personal property and gross income from other sources both within and without the State for purposes of computing the ratio described in schedule 1-D of this return that do not exceed the applicable threshold of \$20,000,000 for any 2 of the 3 taxable years immediately preceding the taxable year for which estimated tax is being computed.

For small corporations, 25% of the estimated tax liability for the current taxable year shall be paid with the tentative return filed on the fifteenth day of the fourth month of the current taxable year, and the balance of the estimated tax shall be paid in 3 equal installments of 25% on each of the fifteenth day of the sixth month of the current taxable year; the fifteenth day of the ninth month of the current taxable year; and the fifteenth day of the twelfth month of the current taxable year.

A program has been established enabling a corporation to remit tentative tax payments electronically. This program is made available to all corporations on a voluntary basis. To participate in the EFT program, you must complete the **State of Delaware Electronic Funds Transfer Program, ACH Authorization** form. This form and its instructions are available by contacting the Division of Revenue, Electronic Funds Coordinator, Carvel State Office Building, P.O. Box 8763, Wilmington, DE 19899-8763, (302) 577-8231.

## WHEN TO FILE AND EXTENSIONS

File Delaware Form 1100S on or before the fifteenth day of the third month following the close of the taxable year. A request for an automatic extension of six months to the Internal Revenue Service will automatically extend by six months the filing date for the Delaware return. If an automatic Federal extension has been granted, a copy of the extension must be attached to the final return when filed.

An extension of time with payment for filing the Delaware S Corporation Reconciliation and Shareholders Information Return is made by filing Voucher 1100P-EXT contained in the Delaware PAYMENT OF PERSONAL INCOME TAX BY S CORPORATIONS coupon booklet on or before the due date of the original return. Please note that a timely filed extension extends the period for filing a final return but does not extend the period of time for making payment. Payment of the estimated personal income tax required to be paid on behalf of its nonresident shareholders must be remitted with the request for extension. Section 511 of Title 30 of the Delaware Code provides that the Director may grant an extension of time for filing any return and may require a bond not exceeding twice the amount of the tax.

An extension beyond the automatic six month period may be requested by letter on or before the due date of the return. A copy of the Division of Revenue Approval Letter must be attached to the final return when filed.

## NOTICE OF FEDERAL TAX ADJUSTMENT

If a taxpayer files an amended Federal income tax return, it is required within 90 days to file an amended State of Delaware S Corporation Reconciliation and Shareholders Information Return together with a copy of the amended Federal return. If the net income reported by the taxpayer to

the Internal Revenue Service for Federal income tax purposes is changed or corrected by the Internal Revenue Service, or the tax computed on the return is redetermined by the Internal Revenue Service, notice of such changes, corrections or adjustments must be reported to the Division of Revenue within 90 days after the final determination by the Internal Revenue Service is made.

## ATTACH COPY OF FEDERAL RETURN

You must attach a copy of your Federal return (Form 1120S) for the income year, including all schedules and exhibits, including Schedule K and K-1, when filing your Delaware return.

A copy of Delaware Schedule A-1 from the Delaware S Corporation Reconciliation and Shareholders Information Return must be attached to the Delaware personal income tax return when filed by the respective resident or non-resident shareholder.

## ELECTRONIC REPORTING OF FORM 1099 INFORMATION

Any S corporation required to report Form 1099-MISC or 1099-R information to the Internal Revenue Service on magnetic media must also report to the Delaware Division of Revenue on magnetic media. The duty to report 1099-MISC information to the Division of Revenue applies in the case of Forms 1099-MISC issued to persons resident in Delaware or to non-residents of Delaware for work performed within Delaware. Forms 1099-R are required to be reported to Delaware in the case of any person issued a Form 1099-R on which Delaware taxes are reported as withheld. Even though Delaware participates in the Combined Federal/ State Filing Program, the 1099-MISC and 1099-R forms are required to be filed directly with Delaware. All others, including 1099-DIV and 1099-INT need not be filed.

## SPECIFIC INSTRUCTIONS

### IMPORTANT

*To ensure the timely and proper processing of your S Corporation Reconciliation and Shareholders Information Return, ALL lines and schedules must be completed. Specific line items, supported by separate attached schedules, must be entered on the appropriate line of this return. Failure to complete all lines and schedules will delay the processing of your return. For purposes of these instructions "taxpayer" means the S Corporation.*

## INTRODUCTION

As a result of the enactment of House Bill No. 573, 68 Del. Laws Ch. 423, effective for tax years beginning on or after January 1, 1992, S Corporations are no longer subject to the Delaware corporate income tax.

Effective for taxable years beginning on or after January 1, 1992, non-resident shareholders are subject to Delaware personal income tax on their portion of the distributive share of the income and deductions of an S Corporation apportioned to Delaware.

An S Corporation is not entitled to adjust its taxable income by a net operating loss carryback or carryforward. There are no statutory modifications or adjustments to Federal taxable income that permits such net operating loss deductions to be taken into account in computing Delaware taxable income under Chapter 19, Title 30 of the Delaware Code. Refer to Delaware Tax Ruling 78-3.

For Delaware personal income tax purposes, resident shareholders are entitled to the benefit of their portion of any net operating loss incurred by the S Corporation. Commencing with tax years beginning on or after January 1, 1992 and to the extent that a net operating loss carryforward resulted from a Delaware S Corporation, net operating loss deductions may be carried forward on the personal income tax returns of non-resident shareholders. These losses may include losses incurred in tax periods beginning before January 1, 1992. There is no net operating loss carryover allowable on the shareholder's Delaware personal income tax return that does not derive from a carryover on the shareholder's Federal personal income tax return for the same year.

## NON-RESIDENT SHAREHOLDERS

An S Corporation is exempt from corporate taxation. Resident and non-resident shareholders must report their respective share of S distributive income on their individual personal income tax returns. A Composite Personal Income Tax Return, Form 200-C, for qualifying non-resident

shareholders of an S Corporation may be filed in lieu of individual non-resident personal income tax returns if all of the following conditions are met: (1) The non-resident shareholders must be non-residents of the State of Delaware for the full taxable year, (2) The non-resident shareholders must not have income (including spouse's) from sources within the State of Delaware other than his or her distributive share from the S Corporation and (3) The non-resident shareholders must have the same tax year ending for personal income tax purposes. An S Corporation which has one or more non-resident shareholders is required to make estimated personal income tax payments on behalf of its non-resident shareholders. S Corporations which conduct business in more than one state must allocate and apportion their income among the respective states. Please refer to the specific instructions for Delaware Schedule A and for Delaware Form 1100S to calculate distributive income for a non-resident shareholder.
